MEMORANDUM TO: Deputy Director, Training

25X1

SUBJECT : Progress Report, August 29-September 4, inclusive.

1. Lecture series on USSR was concluded on August 29. All participants in the USSR and SEA series have been invited to comment on several aspects of the two series. Out of an approximate maximum of about [ ] persons, about [ ] have submitted comments to date. Correlation of all 25X1 comments into a general report will begin next week.

2. An increase in the flow of requests for training support appears to have resulted from OTR's announcement of about 10 days ago. These requests have pointed up the need for either revision of the basic CIA regulation or issue of a supplementary instruction, and the desirability of developing the panel technique. (I now am drafting a possible 25X1 supplementary instruction).

3. I have twice discussed with [ ] his interest in a limited internal training program for his people. We have talked in terms of a seminar on "research techniques" and an area program. These have 25X1 been only exploratory talks, and nothing firm is developing as yet.
